

RAFFAT HAMMED ISSAKA

Software Developer | Full-Stack, Mobile & Secure Development

Accra, Ghana • +233 24 865 1346 • rhissaka@gmail.com

Portfolio: <https://portfolio-my-azure.vercel.app/>

PROFESSIONAL SUMMARY

Computer Science graduate (BSc, KNUST) and software developer with three years of hands-on experience building web, mobile, and full-stack applications for clients and in a team setting. Ships production React and Next.js front-ends, cross-platform Flutter apps, and FastAPI microservices backed by PostgreSQL, with unit and integration testing built in. Google-certified in cybersecurity, bringing a security-first mindset to authentication, payments, and data handling. Comfortable working remotely across time zones. Seeking a software engineering role, on-site in Accra or fully remote.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, Dart, SQL, Bash

Frontend: React, Next.js, HTML5, CSS3, Sass, Tailwind CSS, responsive UI development

Mobile: Flutter/Dart, cross-platform builds, push notifications (FCM), real-time geolocation

Backend & Data: FastAPI, microservice architecture, REST APIs, PostgreSQL, Supabase, Firebase, complex SQL aggregation, authentication and payment workflows

Testing & Practices: Unit testing, integration testing, Agile methodologies, code review, Git version control

Tools & Systems: Git, VS Code, Linux administration, third-party API integration, Advanced Excel

Security: Secure coding practices, security automation with Python, vulnerability management, SIEM (Splunk, Chronicle), Wireshark, NIST CSF

SELECTED PROJECTS

Live demos, screenshots, and the full project list: <https://portfolio-my-azure.vercel.app/>

Foxrand — Logistics & Construction Materials Sales Platform | FastAPI, PostgreSQL, Flutter, React, FCM

- Built a multi-role logistics platform for construction materials, spanning four distinct interfaces for customers, vendors, couriers, and administrators.
- Architected a FastAPI microservices backend on a PostgreSQL cluster, with a Flutter multi-role mobile app and a React admin dashboard.
- Implemented real-time geolocation tracking for couriers and an FCM-driven push notification engine.
- Orchestrated a secure escrow payment workflow and wrote complex SQL aggregations powering vendor analytics.

Pharmly — Pharmacy Marketplace | Next.js, Supabase, Firebase

- Digital marketplace connecting pharmacies with patients: pharmacies list and manage their medicine catalogues while patients browse, purchase, or reserve medications online.
- Real-time inventory sync via Supabase, with Firebase-powered authentication and notifications.
- Companion mobile app currently in development.

EXPERIENCE

Freelance Software Developer & Designer | Remote / Accra

Jun 2022 – Present

- Design, build, and ship web and mobile applications end to end for clients — from requirements gathering through deployment and post-launch support.
- Delivered the Foxrand logistics platform and the Pharmly pharmacy marketplace described above.
- Consistently met agreed delivery timelines while communicating asynchronously with remote clients.
- Produced supporting design work (Photoshop retouching, social media graphics) for online store clients.

Software Developer | VisionGem Technology, Accra

Jun 2023 – Jan 2024

- Collaborated with cross-functional teams to deliver software projects on time and within budget.
- Implemented unit and integration tests, improving code quality and release reliability.
- Provided ongoing support and troubleshooting for software solutions running in production.

Project Collaborator (User Acceptance Testing) | Office of the Registrar of Companies, Accra

Feb – May 2024

- Executed test scenarios against the ORC's digital systems, documented defects, and verified fixes with the development team ahead of release.
- Worked with stakeholders to confirm the system met business requirements and was ready for end users.

Teaching Assistant (National Service) | Bedeku Technical Institute, Ada

Nov 2022 – Sep 2023

- Taught Core Mathematics to a class of 50 students; ran daily assessments, graded exams, and held office hours.

EDUCATION & CERTIFICATIONS

BSc Computer Science | Kwame Nkrumah University of Science and Technology (KNUST), Kumasi

2018 – 2022

- Key results: Introduction to Programming (A*), Computer Networks (A), Database Management.

Google Cybersecurity Professional Certificate | Google / Coursera

2026

- Covers network security, Linux, SQL, detection and response, and security automation with Python.

Mfantsipim Secondary School | 10 A*–C incl. English, Maths, ICT

Languages: English (Fluent)
